RESEARCH FOCI

My research is principally concerned with characterizing how online processing draws holistically on experiential, social, and contextual information, especially in the processing of unfamiliar linguistic information. By incorporating neurophysiological (EEG), behavioral (eye-tracking in VWP, reading), and computational (transformer NLP, TRF) approaches, I work to capture how comprehenders' expectations and processing difficulties reflect their language backgrounds (*e.g.,* L1 v. L2), linguistic experience (*e.g.,* ambient exposure, language ideologies), and contextual sensitivity (*e.g.,* task effects). Beyond psycholinguistics research on processing, I emphasize the holistic dynamics of production and comprehension via semantic fieldwork with a low-resource West African language and multifactorial corpus analyses of child/adult speech indicating that offline linguistic patterns are undergirded by typological differences, experience over the lifespan, and (pragmatic) context. Ultimately, I situate my work within a broader initiative to model how linguistic difference and variation are processed and represented by inscribing an explicit focus on context, experience, and linguistic diversity into linking hypotheses and cognitive architectures for language processing.

EDUCATION

[2025:6] **M.A. in Linguistics, *non-thesis***
Advisors: Edith Kaan & Jorge Valdés Kroff
University of Florida
Project: *Task effects on predictive eye-movements*
GPA: 4.0

[2021:5] **B.A w. honors in Linguistics & English, *summa cum laude***
Advisor: Emily Rine Butler
University of Florida
GPA: 4.0

FUNDING & AWARDS

[: denotes ongoing funding.

{FUNDING}

[2026: **Lab Manager: "Investigating predictive processing in naturalistic second-language comprehension through EEG and computational modeling"**
NSF Award No. BCS-2518248 awarded to Edith Kaan & Teresa Bajo
Department of Linguistics | *University of Florida*

[2025:6] **Research Assistantship: "Reanimating African American Oral Histories of the Gulf South: Enhancing Public Engagement"**
American Council of Learned Societies awarded to Sarah Moeller
Department of Linguistics | *University of Florida*

[2024: **Research Assistantship: "Reanimating African American Oral Histories of the Gulf South." | University of Florida**
NEH Award No. PW-277433-21 awarded to Kevin Tang & Sarah Moeller
Department of Linguistics | *University of Florida*

{AWARDS}

< INTERNAL >

[2026] **Graduate Student Travel Award** *($400*)
Department of Linguistics | *University of Florida*

[2024] **Michael A. Lipsky Memorial Scholarship** *($600*)
Department of English | *University of Florida*

[2023] **Charles Vincent and Heidi Cole McLaughlin Endowment Scholarship** *($1.5k*)
University of Florida

{HONORS}

[2025] **University Honors**
Final Thesis: "*Mach Phonics*: Problematizing Narratives of Authenticity in a Haitian-American Hip Hop Performance"
University of Florida

[2023] **Phi Beta Kappa**
